The Daily Standard. Wednesday, January 17, 1872.

The Tariff Question. Within a month the Legislature wil have met for the despatch of business,and foremost smong the questions that it will be called upon to decide, is that of the tariff. Now our view is that it should not be approached as a party issue. It is too important a question, in citizens to be incautiously treated. We have before expressed our opinion on this subject again and again; but in view of the near approach of the sitting of the R. BRODRICK & CO., it once more under the consideration of those who may have to decide it. In doing so, we must say that if the tariff question be dealt with in one way, it will prove a blessing to the entire Lower Country, and at the same time benefit the ... None but the Best Nanaimo Coal Sold? Upper Country and the Province at large. If it be dealt with another way, it No. B. —Steamers and Shipping Supplied at Shortest Notice. will entail serious loss and create great discontent among the farmers in the Lower Country. The tariff question pre-sents itself under three beads: 1. The British Columbia Tariff and Excise: 2. The Canadian Tariff and Excise; 3. A modification of the British Columbia Tariff and retention of our Excise, during the exceptional period between now and the opening of the railway across the continent. Now if the question be taken as between the two first-the British Columbia and the Canadian tariff-we entertain no doubt but the Legislature would adopt the Canadian tariff and Excise. Such a Mr. Jungerman's, Jeweler, Government decision would result from the feeling Street. that the farm produce of the country behind the Cascades would not be brought into competition with American produce NEW GOODS in the markets of the interior, even if the Canadian tariff and Fxcise were adopted, and consequently up-country farmers would not be injured by the im- MOUNTAIN ASH. a course, would not be a wise one; for the reason that whilst the interior would benefit by the small reduction, that is, ENAMELLED SAUCEPANS. the difference between our tariff and the Canadian; still the entire Lower Fraser MASLIN KETTLES, and the whole East Coast of Vancouver Island would be made a free port, where American produce would flood the mark ets, compete with the lower country farm. To pro-duce such a result as we have just des-BUTTER MOULDS & PRINTS, cribed is neither just, wise, nor expedient. QUOITS, The statesmanlike course to adopt re- SKITTLES. specting the tariff is one that would LADIES'GARDEN TOOLS. satisfy not merely the population east of CORN MILLS, the Caseades, but those who reside west TABLE MATS, of them. If such a course were adopted, SCONCES, both of the great sections of the Province CORKS, would be content; both would feel that pro- WILSON'S BUTCHER KNIVES, per legislation had been made to serve their sectional interests; and both would WILLIAM'S secure that end by a wise compromise CASH BOXES, Now a modification of the British Colum- SAD IRONS, bian tariff, with the retention of our Ex- TAILOR'S IRONS, cise, such as was proposed in the resolu- CUTLERY of the finest description, tion that passed the Legislative Council FILES of all kinds, last session, and afterward was sent to WIRE DISH COVERS, the Governor-General, would be such a WHEELBARROWS, compromise as would meet the case ex- NORWAY IRON, all sizes. actly, and harmonize the opinion and HORSE SHOES, interests of the people both east and west of the Cascades. That such a modification can be had we entertain no doubt whatever, for we have the pledge of the Dominion Cabinet in its favor. The resolution alluded to was endorsed by Sir F. Hincks, to whom it was referred, on the condition that the present Assembly would again pass it. The Cabinet concurred in his report; and the Gover-nor General transmitted their decision to Gov. Musgrave, who had it published in the Gazette for general information. Now with such an opportunity before the Legislature to save our coast and our lewer river farming industry from loss and rainous competition with American produce,—It is hoped the fallacious idea of mere uniformity being essential will lead none astray who have an opinion to give. Uniformity, when it produces more wealth than diversity, is always desirable; but when diversity is better than uniformity,-when it contributes more to the contentment and prosperity of the people than uniformity, then diversity should be and a variety of other goods too numupheld and made the supreme law of the and. The application of this doctrine to the tariff question would give one tariff EDGAR MARVIN'S in this Province during the whole or part of the exceptional period before the completion of the railway, - and another and d fferent tariff in the Atlantic Provinces, Yet, as a consequence of the diversity of tariffs, the contentment of the people would be secure here as well as there; and both having had legislation to suit their interests, both would be prosperous.

THE store of Mr. Thos. Eastman, on Store street, should be visited by judges of good meat. He has some of the finest summer lambe, the youngest in the market; also a SWORDS, RIFLES, GUNS, dairy fed porker only ten months old, which weighs over 130 lbs. Call and see for your-

EDITOR STANDARD :- What a fatal mistake ne Ministry has made in adjourning the Legislative Assembly for nearly a month longer! What object they had in view for so doing except it be to disgust the members and satisfy the people of their incapacity to govern the Province is best known to themselves. Surely they cannot say it was be-cause they wanted Mr. Walkem to be Commissioner of Lands and Works. If the Minis-try had offered the office to Mr. Hunter, who is a Surveyor, and whose experience in the profession might infuse new blood into that department there might be an excuse for the delay. But no, this was not done simply because somebody thought he might know too much and run north on a true meridian. Mr. Walkem is a total stranger to the duties of the office, and brings no strength to the Ministry; the only follower he has got on the mainland is Mr. Holbrook, the good-natured gentleman who kept the office warm for him, and who is better qualified to discharge the duties of Chief Commissioner and more House at the present time.

The Observer alone opposes the Treaty; it says that the English Commissioners have been outwitted; that England is bound hand foot. It says that the the commissioners have been outwitted; that England is bound hand foot. It says that the commissioners have been given to him after the session was over as well as before it commenced, and thus saved all further delay, for it cannot be denied that the delay is unnecessary and calculated to breed discontent among the members now summoned here for the dispatch of public business, the most of whom must return to their own homes by at farthest the middle of March. Recently I observed a couple of long-winded articles published in an obscure sheet, the Colonist the chameleon's political winding-sheet relative to the opposition members upsettin the Ministry and thus delaying the public business. What can it say now, when Mr. Holbrook 18 bowled over by the Ministry themselves thereby causing a longer delay than could possibly have occurred by an entire change of the Ministry? Then again it is impossible to believe that the government of this province can continue in the hands of three dry lawyers belonging to the surplus population, ignoring the claims of the farmer, the mechanic, the miner, and the trader. STANDARD:—Through the medium of your saper I want to state the very great good that has been lone me by Dr. Ching Fun of this city, nxet door Kwong Lee & Co.
